

Authentic Babies

Early Parenting – Coming Into Being

Liz Memel M.A. RIE® Associate

Mentored by Magda Gerber

Infancy is a most vulnerable stage of development, as new parents pave their way, providing care for their child and themselves.

**Certified RIE® Parent-Infant Guidance
Classes are happening in OJAI and ONLINE**

Classes in person for mothers and fathers with children from birth to age two are held in a peaceful setting that encourages babies and toddlers to become authentic, attentive, active explorers, learning how to learn. But it's not only about child development. Parents develop too and are the natural experts, learning from their own child, other parents, and babies as well as from the parent educator/facilitator in this research-based world-wide certified educational program.
